About the ATAF

The African Tax Administration Forum is an organisation established by African revenue authorities in 2009, in order to improve the performance of tax administrations in Africa. The tax administrations of 40 countries in Africa are members of ATAF – ie, 74 per cent of tax administrations on the continent – making it the premier body on tax matters on the continent. Two countries, Mali and Somalia, are the most recent to join the organisation in 2020. The ATAF believes that better tax administration will advance economic growth, increase accountability of the state to its citizens, and more effectively mobilise domestic resources. Now in its 11th year of existence, the ATAF has positioned itself as Africa's homegrown solution to improving revenue collection, advancing the role of taxation in governance and state-building, and providing a voice for the continent on international tax issues.

About the UP Faculty of Law

The Faculty of Law (UP Law) at the University of Pretoria (UP) strives to be an internationally recognised leader in socially relevant legal research and education in South Africa and the world. In pursuing this vision, the Faculty's mission is to create and sustain a research and education environment grounded in the values of social justice and excellence. We have the necessary structures and systems in place to ensure that our graduates receive the guidance and support to allow them to graduate on time.

For the fourth successive year, according to the THE ranking, the Faculty ranks best in Africa.

It currently employs 70 dedicated full-time academics, of whom approximately two-thirds hold doctoral degrees in various fields of law which enables them to prepare our student community for various law-related career opportunities.

About WITS School of Law

The Wits School of Law equips students with critical-thinking skills across our undergraduate and postgraduate teaching offerings. We host three Centres – the Wits Law Clinic, the Mandela Institute, and the Centre for Applied Legal Studies (CALS) – and a Research Chair in Equality, Law, and Social Justice.

Our roots go back to 1922 when our initial offering was the Law Certificate for attorneys and the Civil Service Lower Law Examination. As we approach our centenary, our current offering is vast. We teach a variety of undergraduate programmes, specialised master's degrees, PhD programmes, and are active in facilitating international exchanges of both students and staff.

We have over 50 staff members and more than 1 000 students. The achievements of our staff, students, and alumni are evidenced in the success of the 'Witsies' who serve in law firms, the judiciary, academia, and NGOs across the world. Their success is a testament to our commitment to equipping students with critical skills and contributing to South Africa's social and economic development.
