## About ATAF

The African Tax Administration Forum (ATAF) is an organisation which was established by African revenue authorities in 2009, in order to improve the performance of tax administrations in Africa. The tax administrations of 40 countries in Africa are members of ATAF, i.e., 74 percent of tax administrations on the continent, making it the premier body on tax matters on the continent. Two countries, Mali, and Somalia were the latest to join the organisation in 2020. ATAF believes that better tax administration will enhance economic growth, increase accountability of the state to its citizens, and more effectively mobilise domestic resources. Now in its 12th year of existence, ATAF has positioned itself as Africa's homegrown solution to improving revenue collection, advancing the role of taxation in governance and state-building and providing a voice for the continent on international tax issues. The ATAF Secretariat extends its gratitude to all member states for their continued support, the data, and resources provided that underpin ATAF's publications. The support of ATAF members, development partners and donors also play a key role in the success of ATAF's development as a significant platform for Africa on tax matters, with continued technical and financial support since its inception in 2009.
