About ATAF

About ATAF

The African Tax Administration Forum (ATAF) is an organisation which was established by African revenue authorities in 2009, in order to improve the performance of tax administrations in Africa. The tax administrations of 42 countries in Africa are members of ATAF, i.e., 76 percent of tax administrations on the continent, making it the premier body on tax matters on the continent. ATAF believes that better tax administration will enhance economic growth, increase accountability of the state to its citizens, and more effectively mobilise domestic resources. Now in its 13th year of existence, ATAF has positioned itself as Africa's homegrown solution to improving revenue collection, advancing the role of taxation in governance and state-building and providing a voice for the continent on international tax issues.

GIZ covered the ATO capacity building activities, the ATO validation meeting and the production of the publication.

The support of GIZ plays a vital role in the success of ATAF's development as a significant platform for Africa on tax matters, with continued technical and financial support since its inception in 2009.
